### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 are, drawn to crystalline gatifloxacin sesquihydrate Form H1.

Group II, claim(s) 6-12 are, drawn to crystalline gatifloxacin Form H2 and process for preparing Form H2.

Group III, claim(s) 13-19 are, drawn to crystalline gatifloxacin Form H3 and process for preparing Form H3.

Group IV, claim(s) 20-24 are, drawn to crystalline gatifloxacin Form H4 and process for preparing Form H4.

Group V, claim(s) 25-30 are, drawn to crystalline gatifloxacin Form H5 and process for preparing Form H5.

Group VI, claim(s) 31-36 are, drawn to complex composition containing crystalline gatifloxacin Forms H1, H2, H3, H4 and H5.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the compounds of Group I clearly have different special technical features (x-ray diffractograms) than those of Groups II-V and neither of the diffractograms of Groups I, II, III or V and the sesquihydrate of Groups I and IV define a contribution over the prior art. The various x-ray diffraction spectrums vary extensively and when taken as a whole results in vastly different compounds. Accordingly, unity of invention is considered lacking and a restriction of the invention in accordance with the rules of unity of invention is considered to be proper.

A telephone call was made to Robert S. Silver on 07/27/07 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
